

One.TelcoBill

The Power of  one.

Product Overview

Simplify your billing process with TELIN's white label billing platform. At no up-front cost to you, our intuitive billing tool lets you:

- **Brand Your Invoices:** Showcase your company's identity with personalized invoices featuring your logo and colors.
- **Flexible Pricing:** Set your own margins with customizable SKUs tailored to your business needs.
- **Client Sub-Accounts:** Empower your customers with the ability to access invoices, update payment details, and manage their bills hassle-free.

Without having to worry about:

- Telecom utility taxes
- FCC regulations
- Payment gateways

Tax Rating Engine

The telecom taxation arena has grown increasingly complex, making it difficult for most businesses to stay on top of its many nuances and requirements. TELIN's automated tax rating engine drastically simplifies the process, while saving you money on those pricey accountants.

Navigating the complexities of telecom taxation is a thing of the past with TELIN's automated tax rating engine. Our cutting-edge solution handles:

- State E911 Tax
- Federal Universal Service Fund (FUSF)
- Recovery and Federal TRS Fund Fees

Say goodbye to costly accountants and hello to efficiency and savings with TELIN's Tax Rating Engine.
